Erasmus+ Project "Climate is Changing, What About Us?" Task: Create a Rap Song

Task Overview

As part of our Erasmus project, you will work in groups to create your own rap song lyrics about climate change. The title of the project and song is: "Climate is Changing, What About Us?"

You will use AI tools to help you brainstorm, draft, and polish your lyrics. The rap should raise awareness about climate change, encourage action, and reflect your group's creativity.

Instructions

- Form Groups – Work in small groups (3–5 students).
- Brainstorm Ideas – Discuss what climate change means to you. Think of keywords: rising seas, melting ice, pollution, green energy, youth action, future, etc.
- Structure Your Rap – A rap usually includes: Intro (set the tone), Verses (problems & solutions), Chorus/Hook (catchy main message), Outro (strong ending, call to action).
- Use AI to Support Your Writing – Use AI tools (e.g., ChatGPT) to generate ideas, rhymes, or full verses. Always review and edit the AI's suggestions to make them your own.
- Translate the Chorus – After creating your rap with AI, adapt the chorus into your own language (Lithuanian, French, Greek, or Italian). This way, the same powerful message is sung in multiple languages.
- Finalize Lyrics – Ensure your rap connects with the project theme: "Climate is Changing, What About Us?". Make it powerful, rhythmic, and easy to perform.
- Optional Performance – If you want, add beats or practice performing your rap in class.

Tools for Create Lyrics

- Writecream.com https://www.writecream.com/ai-lyric-generator/?utm_source=chatgpt.com
- ChatGPT https://chatgpt.com/
- Lyriclab.net https://www.lyriclab.net/?utm_source=chatgpt.com
- QuillBot – AI Lyric Generator https://quillbot.com/ai-writing-tools/ai-lyric-generator?utm_source=chatgpt.com
- Harmoniac.ai – Free AI Rap Generator https://harmoniac.ai/ai-rap-generator?utm_source=chatgpt.com
- ToolSnak – AI Rap Lyrics https://www.toolsnak.com/en/ai-rap-lyrics-generator?utm_source=chatgpt.com

Example Prompts for AI

- Write a rap verse about melting glaciers and rising seas.
- Suggest a catchy chorus for a climate change rap song.
- Make a rap in the style of Eminem about saving the planet.
